

The next evolution of StrongBox's Heavy Duty Front Entry series!

Since 1985, StrongBox has been the leading manufacturer of sustainable, high-quality stainless steel enclosures. Over the course of the last 35 years, we have remained innovative in our development of durable and reliable products to bring you the best possible options for your stainless steel enclosure needs.

StrongBox is pleased to announce **the next generation of our Heavy Duty Front Entry series!** The newly updated design now provides a next level security feature by adding the ability to directly padlock the door to the body.

This new design will be available starting in Q1 of 2021!\*\*

\*\*Current design will be available while supplies last.

#### **Features and Benefits**

- **Specifications and part numbers will not change** – Enclosures have retained the three-point locking system, heavy-duty continuous hinge, top and bottom louvers and the 10-year materials and workmanship warranty. Overall size and dimensions have not changed.
- **New design remains backward compatible with the previous design.**
- Lock and latch have been moved to the middle of the door for easier access.
- Padlock tab has been added to directly lock the door to the body.
- Lockable access door protects the T-Handle and padlocks from vandalism or exposure to the elements.
- Has a clean and finished look.
- NEMA Type 3R rated, UL Listed.

Additional details to follow.
